The Epson Discproducer PP-50 is equipped for low to medium volume CD, DVD & DL DVD production. The Epson PP-50 is an enclosed system with one recorder and an inbuilt, full colour inkjet printer. This means the Epson PP50 is one of the easiest systems to setup and use making it ideal for the office. If you need multiple job queuing with high quality print and you're doing lots of small quantity duplication then this is the ideal system.

**Super-productive and hassle-free** - As easy to use as an office printer, the Epson Discproducer PP-50 can output up to 50 CDs/DVDs in a single session. Depending on data type and volume that amounts to up to 15 CDs & 8 DVDs per hour. It's the only product in its class that has front facing control and status reporting.

**The best print quality in its class** - You'll get vibrant, lifelike, razor sharp prints from your Epson PP-50 that are smudge proof and water resistant thanks to the advanced print technology and ink. Media from other manufacturers can be used.

**Cost-effective to own** - Incredibly, you can produce over 1,000 prints per set of ink cartridges on your Epson PP-50. And because it uses a separate cartridge for each colour, you only need to change the cartridges that are near empty.

**Support** - Handisc offer a range of support levels to ensure peace of mind. The Epson Discproducer PP-50 comes with 1 years on-site warranty but this can be upgraded to a 3 year onsite agreement when the system is bought.

\*Full Epson PP-50 PC Requirements
